Part 2 - Project focus
Group 3

1. What is your target variable?
   Robberies Per Population
2. What is the target variable data type?
   Float
3. How many predictor variables do you have?
   9
4. List each predictor variable and its data type?
   - medIncome   int64
   - pctWWage   float64
   - pctWInvInc   float64
   - medFamInc   int64
   - NumUnderPov   int64
   - PctPopUnderPov   float64
   - pctWPubAsst   float64
   - TotalPctDiv   float64
   - PctNotHSGrad   float64

5. How many observations do you have?
   2215
6. What is your baseline model? This needs to be either a majority (categorical) or average (continuous)
   Linear regression average. (continuous)
7. What is the accuracy of your baseline model?
   Mean Absolute Error: 154.47772129840635
